

Noventa AG in brief.

Bright Ideas. Successful Products.

It's quite simple really: we develop your product. We get it ready for series production. And then we manufacture it. For your success. Our services are just as individual as your requirements. We take your idea and create a complete system solution – ready to market and beyond. Place the overall responsibility for your successful products in our experienced hands and focus your energies on your core expertise. This will give you a valuable competitive edge and reduce your time to market.

Range of services

- Product development: Product concept, Design, Construction, Prototyping, Project Management
- Industrialisation: Production Concept, Tooling, Procurement
- Production: Parts manufacture, Equipment assembly, Logistics, Quality Assurance
