

### The idea

- Realisation of a shower-toilet for installation in standard Geberit in-wall flushing systems

### The job

- Completion of a comprehensive feasibility study
- Development and design of all product components
- Industrialisation and series manufacture of the complete unit

### The success

- AquaClean 8000plus launched in 2003 as a novel product on the world stage
- Geberit became the shower-toilet market leader in Europe

**Area of competence:  
Complete product systems**
